A school prom is a formal party to celebrate an important date at school such as the end of secondary school or after completing school exams, usually held in June or July, around the end of exam time.

A secondary school prom often involves a big party, big dresses and huge cars.

The idea is to have fun with your school friends and celebrate your time and achievements at school.

Some schools hold a luxury party in a five-star hotel. Others have a more basic dinner in the school hall.

By 2050, thanks to the electrification of vehicles, the use of driverless cars and the spread of carsharing, it will be possible to reduce oil consumption in the United States while preventing 5.500 premature deaths per year. Along with the preservation of climate and people, there will be extremely positive repercussions on the economic level. The transition to smart mobility will be encouraged, for example by creating financial incentives for shared mobility.

Climate change will affect transport infrastructures through several events:

- the increase in temperature, which leads to a greater vulnerability of road (asphalt) and rail (tracks) infrastructures due to increasing frequency of hot days;
- the variation in rainfalls, which negatively affects the stability of soils;
- the variation in sea level, which poses risks to road and rail infrastructures located on coasts and harbors;
- floods, which have impacts on transport infrastructures located near waterways

It's been twenty-five years since the publication of the first book in the Harry Potter series. Originally aimed at children, it tells the story of a young wizard called Harry Potter and his school friends during their first year at Hogwarts School for Witchcraft and Wizardry, a boarding school for magical students aged eleven to eighteen. The school building looks like a large castle, is hidden in the Scottish Highlands and surrounded by a dense and dangerous forest.

The reopening of trade fairs in presence, after the season of the strictest lockdown, marks the return to old habits, which we thought a bit obsolete, but now realise how important they were: meeting in person, talking, seeing products and establishing that empathy that through e-mail and videocalls is difficult to find again.

Already the unexpected success of participation in the first post-pandemic Milan Fair, the Salone del Mobile "Special Event" showed the desire of the public and operators to participate live.
